

Comparison Operators

==

- compares value, not type

```
> "123" == 123
< true
> 1 == '1'
< true
> 0 == ''
< true
> 0 == false
< true
> null == undefined
< true
```

===

- compares type & value

```
> "123" === 123
< false
> 1 === '1'
< false
> 0 === ''
< false
> 0 === false
< false
> null === undefined
< false
```
